

nto Their Royal Majasties An Tir,

do we, The honorable Lord Asher der jäger, Squire to Aleksu Konstantiaovich Chernoi, and The honorable lady Anastasia Darnel, send greetings, and hereby declare our intent to pursue the coronets of the barony of blatha An Or. This pursuit is driven by our love of the lands of the golden blossom, her people, and the sincere desire for them to prosper.

Together we represent a much needed and important diversity of viewpoint and thought due to our differing backgrounds and approaches. The foundation of our leadership within the barony would be one of friendship, and partnership as the baron and baroness, demonstrating the highest ideals of unity and understanding within our society.

as representatives of the crown, we would manage the lands of blatha An Or with all that we hold dear. We pledge to exercise good stewardship over your lands and people, treating all as we would our own. We have both served this barony as officers and we will work to promote and maintain this barony and its reputation for welcome and inclusion. After such a difficult time as we have all weathered, it is important to reach our existing populace and inspire them back into participation by making sure they feel seen. It is also important to engage new members and help them find their own place within our society.

Your Majesties should know that in all matters of war and peace, we, your loyal subjects, stand ready to protect and promote this barony, and to answer the call of the sable lion and lioness whenever it should sound. It is with this pledge that we humbly request acceptance of our candidacy for this office.

Asher der jäger

Anastasia Darnel
